

# CROSSHALL CLOSE UP

Dear Parent/Carer

I wrote to you all yesterday to offer some reassurance and support now that we are one week into remote learning.

The main message of my letter was to reiterate that whilst the Government has asked schools to provide a certain amount of learning per day, we really do understand that everyone's situation will be different. Please just do what you can.

## Remote Learning

Each day, children are offered a Class Meet whereby the children can see friends, as well as their teacher, and the daily activities are explained to the class.

Beyond this there are tasks which can be done when it suits family life and then the work is submitted to the teacher to enable feedback to be given.

The staff have also offered Drop-ins and recorded lessons to support the children which means that screen time has increased a little from what it was last year; however, we have received feedback that children seem more engaged and parents are able to focus on their own work.

Please remember, you are, and have always been, your child's primary educator. If you decide that your child needs a break, then that should happen. There is nothing to feel stressed or guilty about.

If you missed the letter, please click [HERE](#) to read it in full.

Head Teacher

## INTRUDERS ON CJS SITE

Over the past month we have had several teenagers entering the school site (after school hours), moving benches, breaking glass bottles, throwing a scooter into a tree...

The police are patrolling the area. If any local residents see any such activity, please can you report it to the police and also let the school office know.

Many thanks for your support.

## A MESSAGE FROM THE NHS

The NHS has asked for this message to be sent out to you.

Undiagnosed Type 1 diabetes in children requires urgent medical attention.

If your child has **ANY** of the main symptoms of Type 1 diabetes please make an **urgent** GP appointment or contact the Out of Hours service. The main symptoms are known as the 4 Ts – Thirst, Toilet, Tiredness, Thinner. If you notice your child is thirsty or using the toilet more frequently, is always feeling tired, or has lost weight recently, seek immediate medical advice.

NHS services are very well equipped to look after children safely if they are unwell. Please do not delay seeking medical advice because of Covid-19.

There is more information available here:

## CJS LITTLE SHOP OF KINDNESS

During the Summer term and the first lockdown, we 'opened' our CJS Little Shop of Kindness. The shop was filled with your kind donations for those in need in our community and families were very grateful to receive bags full of essentials.

**We need your help to bring this shop back.**

So, do you have anything that could be donated to help other families? Good quality store cupboard foods but especially toiletries (sanitary goods, shower gel, soap) / household products (like washing powder and toilet rolls) would be gratefully received.

We are able to distribute these every day. Please leave any donations in the reception area and we will handle and distribute them after quarantining the items. Thank you in anticipation.
