*"The school works successfully to raise the aspirations of pupils. Through the school's 'Future Me' project, pupils learn about the world of work and the choices they may face in later life. Visits from scientists, authors and engineers help pupils to learn about what they can achieve if they work hard. The school uses these visits diligently to break down gender stereotypes, resulting in one girl telling an inspector that 'I thought that all scientists were men, but now I want to be one.'
